Cori Brown, Wayne County

LANDFILL PERMIT ISSUED

Wayne County submitted an application to renew its operating permit for the Long Hollow Landfill located approximately 4 miles southwest of Loa, Utah. The landfill receives less than 20 tons per day of nonhazardous solid waste including municipal solid waste, commercial waste, and construction/demolition waste.

The Utah Division of Solid and Hazardous Waste reviewed the permit renewal application and a draft permit was released for a 30-day public comment period beginning December 7, 2005. No comments were received and the permit renewal was granted and became effective January 20, 2006.
